

Compact and lightweight **LED stroboscope** created from the development field

SMACH is the engineer group that specializes in drive technologies of motor and generator.

“Compact and lightweight LED stroboscope” was created from SMACH’s advanced technological abilities. This is compact and lightweight Handheld which adopts high brightness LED light source. Anybody can observe dynamic behavior easily.

Useful in a scene of “development” and “maintenance”.

Simple measurement with a dial type

Lightweight body,
Only 200 g (include
AA alkaline batteries)

Up to **150,000 rpm** measurement
(Top-class performance)

Auto power-off for
long battery lifetime

The lowest price, **Smart design**,
fitting to your hand

Items	Specifications
Product Name	LED stroboscope (SMC-08A)
Fanctions	Speed adjustment function (4 Steps) Display switching function (rpm and Hz) Auto power-off function, Memory speed adjustment Battery change alert
Flash Range	60 ~ 150,000 rpm (1 ~ 2,500 Hz)
Measurement Accuracy	$\leq \pm 0.1\%$ ($\geq 1,000$ rpm or 100 Hz) ± 1 rpm (<1,000 rpm) , ± 0.1 Hz (<100Hz)
Light source	16 white LEDs
Power source	AA alkaline battery \times 2 pcs
Dimension	75 \times 168 \times H54 mm (H37 mm : excluding projection part)
Weight	approx. 200 g (including batteries)
